

The diagram shows a window titled 'loc_12FA:' containing assembly code. Above the window, five blue arrows point downwards. Below the window, two empty assembly windows are shown. A red arrow points from the 'jz' instruction to the first empty window, and a green arrow points from the 'jz' instruction to the second empty window.

```
loc_12FA:
lea    rax, aUtflagStrings1 ; "utflag{strings_is_y0ur_fr13nd}"
mov     [rbp+var_10], rax
mov     eax, 0
mov     rcx, [rbp+var_8]
xor     rcx, fs:28h
jz      short locret_131E
```
